LOUISIANA ETHICS ADMINISTRATION PROGRAM

P.O. Box 4368

Baton Rouge, Louisiana 70821

To Whom It May Concern,

This is a request for a formal opinion on-line if possible.

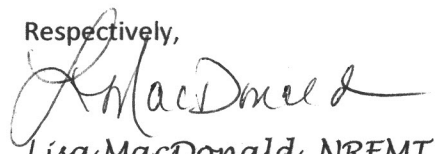

I currently work for the Louisiana Bureau of EMS in the position of 911 Communications Coordinator overseeing the agencies that provide telecommunicators that provide Telephone CPR in accordance to SB 264 Act No 578. We currently have each 911 agency administrator along with their telecommunicators create accounts within our Bureau of EMS database to assure they are operating within the new standards, along with having their employees (telecommunicators) upload their current T CPR/EMD certifications as required by the new law that was passed in 2018. My job is to review their accounts and documents they have uploaded to assure they meet the new state requirements.

Recently I received an inquiry if I could come and work part-time with East Baton Rouge Communications District to assist them with their GIS Database (Geographic Information System data for their parish pertaining to public safety response areas).

I want to make sure this would not be a conflict of interest with my current position. The EBRP Communications District does not manage any 911 telecommunicators. At this time, the 911 telecommunicators for this parish are employed/managed by East Baton Rouge EMS.

Thank you for your time and cooperation in dealing with me on this matter.

Respectively,

Lisa MacDonald, NREMT
